Web Application Developer / Software Engineer

As a reliable, self-motivated, open minded individual, I seek an opportunity to get a valuable experience and knowledge to brighten my future with success. Seeking a position as a *web application developer* where I could utilize my software engineering skills and experience gained through relevant education and projects, to the ongoing success of your company. At the same time, I could learn under working professional to gain knowledge and improvement of my skills by giving the best input to your company.

SUMMARY

I am an ambitious, experienced individual with a background in Information Technology who will be graduated in April 2021 from Sri Lanka Institute of Information Technology (SLIIT), seeking employment as Web Application Developer. I cooperated with several start-up projects. I also have completed my industrial placement at Sri Lanka Telecom (SLT), which gave me the experience to work in the industry and I have completed six months during the internship. I would also like to emphasize that I have strong team working and communicational skills which would assist me in this role. In a rapidly changing world, I am sure that I can provide a fresh and an extraordinary approach to every project I will be involved in as I'm always open to challenges and constructive feedback. I am always open-minded and loves to learn new things that will bring in high-quality and unique products.

EXPERIENCE

Computer Operator

June 2019 – December 2019

Sri Lanka Telecom – Colombo Head Office
